▪ Hoof growth & repair

HOOFMAKER

HOOFMAKER provides all the essential nutrients necessary to protect and nourish every layer within the hoof horn, ensuring optimal growth and improved integrity of the hoof.

Presentation: Pellets 3 kg, 10 kg.

HOOF CONDITIONER

Regular application of TRM's Hoof Conditioner will help to prevent cracking and hoof dryness, while leaving a perfect shine for the show-ring.

Presentation: 2.5 L.

▪ Keeps hooves supple

STAYSOUND

STAYSOUND is an internationally acclaimed topically applied Kaolin cold clay which cools, soothes and tightens hot tired legs.

Presentation: 1.5, 5 & 11 kg.

▪ Leg clay

VITA-E-PLUS

VITA-E-PLUS is a unique feed supplement, combining the antioxidant activity of Vitamin E, Vitamin C and Selenium.

With the addition of the essential amino acid Lysine and B Vitamins, it is designed to help with issue of "tying-up syndrome."

Presentation: 30 x 50 g satchels.

▪ Assists "tying-up"

GOOD AS GOLD – POWDER

GOOD AS GOLD POWDER is designed to be added to the normal feed ration. Trainers have noted that after a few days, horses become more relaxed and attentive.

Presentation: 500 g & 1.5 kg.

▪ Daily maintenance for calming

GOOD AS GOLD – PASTE

GOOD AS GOLD PASTE is an effective and convenient feed supplement specially designed for nervous, hot or stressed horses.

Presentation: 3 x 70 g oral syringe.

▪ Calming paste

▪ Gut health

GNF – PELLETS

GNF is a unique supplement, for daily feeding to horses prone to gastric disturbances.

GNF plays a key role in maintaining optimum gut health and function, allowing maximum feed utilisation, improving and maintaining condition.

Presentation: 3 kg, 10 kg.

GNF – PASTE

GNF PASTE contains all the same active ingredients as GNF Pellets, with the added benefit of Slippery Elm, to assist in soothing internal inflammation. Ideal for foals.

Presentation: 28 x 80g oral syringe.

▪ Prebiotic for hind gut

CURRAGH CARRON OIL

CURRAGH CARRON OIL is a balance blend of essential fatty acids derived from a high quality, cold pressed Linseed Oil, fortified with Calcium Hydroxide.

Assists digestive process. Obtain exceptional coat condition and shine.

Presentation: 4.5 & 20 litre.

▪ Digestive aid & pH balancer

MUSCLE UP

MUSCLE-UP is a highly purified and concentrated rice bran oil, which promotes muscle development, physical well-being and improve overall appearance, especially coat condition.

Presentation: 1 L.

▪ Muscle builder

CAUTION: The use of this product may contravene the rules of equestrian competition. TRM recommends consulting your governing body.

IRONXCELL

IRONXCELL is a premium Iron Enriched B vitamin syrup for all performance horses.

Increases red blood cell count.

Contains Sorbitol to assist absorption.

Presentation: 3.75 & 10 L.

▪ Iron Tonic

SPEEDXCELL

SPEEDXCELL is a balanced multivitamin and mineral supplement, in a liquid solution. SPEEDXCELL will assist in maintaining optimum health and maximise their athletic potential.

Presentation: 3.75 L.

▪ Mineral balancer

HEMOREX POWDER

HEMOREX Powder provides essential nutrients to maintain elasticity and integrity of capillaries, critical to withstanding the stress and strain of racing. Designed to help “bleeders.”

Presentation: 1.5 kg.

▪ Assists “Bleeders”

HEMOREX PASTE

HEMOREX PASTE is specially designed to provide essential nutrients for bleeders, including Vitamin C, and Iron. These nutrients derive from natural plant extracts and are easily absorbed.

Presentation: Paste 50 g oral syringe.

PURE POWER CREATINE

Creatine when ingested bonds with Phosphoric Acid to form the high energy compound Creatine Phosphate. Keeps muscles working at maximum output for longer.

Presentation: 2.25 kg.

▪ High energy “muscle food.”

CAUTION: The use of this product may contravene the rules of equestrian competition. TRM recommends consulting your governing body.

ELECTROLYTE GOLD

Each daily dose is individually foil packaged for freshness and maximum efficacy. Scientifically formulated with essential electrolytes and vitamins in an amino acid and glucose base.

Presentation: 30 x 50g.

▪ Premium electrolyte supplement

SUPERLYTE SYRUP

SUPERLYTE SYRUP is a highly palatable, easily absorbed 2:2:1 balanced electrolyte replacer syrup for all horses in work, designed to rapidly replace electrolytes in exactly the same ratio as they are lost in equine sweat.

Presentation: 3.75 L, 10 L.

▪ Daily electrolyte

SUPERLYTE PASTE

SUPERLYTE PASTE has been formulated to rapidly replace electrolytes, is fed orally and is particularly convenient immediately after competition, intense training or during transportation.

Presentation: 3 x 70 g oral syringe.

▪ Electrolyte Paste

STRIDE HA

STRIDE HA solution is a fast acting liquid formulation for the nutritional maintenance of healthy cartilage and joints in horses, with the additional benefit of Hyaluronic Acid.

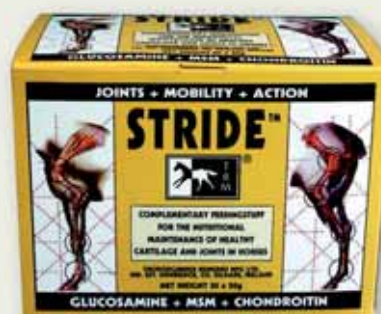

Presentation: 1.183 L, 3.75 L.

▪ Joint oral treatment

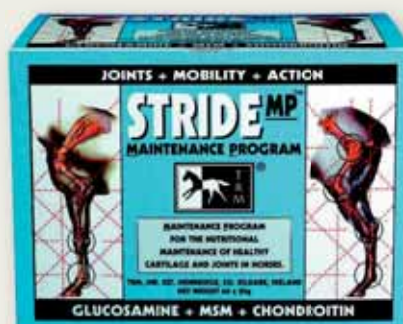

STRIDE POWDER

Fed as recommended, it will enhance the level of glycosaminoglycans (GAGs) in the joint. These are the building blocks of the cartilage matrix, allowing the joint to better withstand constant compression and concussion.

Presentation: 30 x 50g sachet.

▪ Maintain joint health

STRIDE MP

STRIDE MP is a long term mobility maintenance programme for performance horses. It is recommended to use STRIDE MP after a complete course of STRIDE.

Presentation: 60 x 20g sachet.

▪ Long term mobility

BETA CAROTENE

Containing Beta-Carotene, Folic Acid & Vitamin E, designed exclusively for breeders, to help condition the mare for breeding season, having a positive effect on the fertility process.

Presentation: Powder 3 kg.

▪ Assist Broodmare fertility

MULTIPLEX

MULTIPLEX is a B vitamin booster syringe that can be given weekly to horses in training, to promote a good appetite or as a pre-competition booster.

Presentation: 3 x 50 g oral syringe.

▪ B Vitamin booster

CALPHORMIN

CALPHORMIN provides for the elevated requirements of the essential nutrients needed for optimum skeletal development in young growing horses.

Increases bone density, helping with shin soreness.

Presentation: Pellets 3, 10 & 20 kg.

▪ Bone development
